Knowledge. Rehearsal. Field discipline.

The programme links knowledge, rehearsal, field discipline, and assessment so each stage prepares the learner for the next.

- 01**  **Aviation foundations**
Flight principles, weather awareness, airspace context, Drone Rules, and remote-pilot responsibilities.
- 02**  **Aircraft systems**
Airframes, propulsion, batteries, flight control, navigation, communication, and ground-control systems.
- 03**  **Mission preparation**
Site assessment, permissions, checklists, crew communication, equipment care, and operational records.
- 04**  **Simulation and supervised flight**
Control familiarisation, manoeuvres, return-to-home, abnormal situations, and instructor-led practice.
- 05**  **Competency assessment**
Knowledge, flying ability, safety awareness, checklist discipline, and professional judgement.

**Practical learning.
Clear operating habits.**

Find your next step.

Who this is for

- ✓ Applicants preparing for the applicable small-category remote-pilot programme.
- ✓ Teams seeking a disciplined foundation for safe drone operations.
- ✓ Learners comparing eligibility, approved scope, and the training journey.

Confirm before booking

- ✓ Current eligibility and required documents
- ✓ Applicable programme, dates, and available seats
- ✓ Fees, taxes, inclusions, and refund terms
- ✓ Travel, accommodation, equipment, and materials
